SYNTHETIC DEMO CONTRACT

Fictional Software Services Agreement - NOT FOR SIGNATURE

DEMO DATA ONLY. The companies, people, services, dates, amounts, and terms are fictional. For software demonstration only. Do not sign or use as a real contract.

Provider	Alpha Org
Customer	Alpha Labs
Demo effective date	October 24, 2026
Term	One year, subject to Section 3

This fictional agreement covers sample software implementation and support services between the Provider and Customer named above. It is deliberately synthetic and is not a legal form.

1. Services

The Provider will configure a fictional inventory dashboard, connect it to a demonstration data feed, and provide remote onboarding for up to ten Customer users. Additional deliverables require a written change note.

The Customer will provide test data, name a project contact, and review deliverables within ten business days. The Provider will correct material failures to meet written acceptance criteria during that review period.

2. Fees and payment

The project fee is USD 120,000, payable in three equal installments at project start, first delivery, and final acceptance. Undisputed invoices are due within thirty days.

The Provider may propose a price change for a renewal term with at least sixty days written notice. It will not apply during the current term. Either party may let the agreement expire if the renewal price is not accepted.

3. Term and renewal

The term begins on the demo effective date and continues for one year. It renews for successive one-year terms unless either party gives written notice of non-renewal at least thirty days before the current term ends.

4. Confidentiality

Each party will protect non-public business, technical, financial, and operational information received from the other party using reasonable care, and will use it only to perform or receive services under this agreement.

These duties do not apply to information that is public without breach, already known without a duty of confidence, independently developed, or lawfully received from another source. Legally required disclosure is permitted after notice where lawful.

5. Intellectual property

Each party retains materials it owned or developed independently. After full payment, the Customer receives a non-exclusive, non-transferable license to use the project-specific dashboard configuration for its internal operations.

The Provider retains its general tools, templates, know-how, and reusable components. No source-code ownership transfers under this sample.

6. Data handling

The Customer will use fictional or properly authorized data for the demonstration. The Provider will limit access to personnel who need it and use reasonable administrative and technical safeguards.

Within thirty days after the project ends, the Provider will delete or return Customer data on request, except routine backups or legally required retention.

7. Warranties

Each party represents it has authority to enter this sample agreement. The Provider will perform with reasonable care and skill and use commercially reasonable efforts to correct reproducible defects reported during the term.

Other warranties are disclaimed to the extent permitted by applicable law, including implied warranties of merchantability, fitness for a particular purpose, and non-infringement.

8. Liability and indemnity

Neither party is liable for indirect, incidental, special, exemplary, or consequential damages, or for lost profits or lost data arising from this sample.

Except for excluded claims, each party aggregate liability is capped at fees paid or payable in the twelve months before the claim. The cap does not apply to fraud, willful misconduct, or a confidentiality breach.

9. Termination

Either party may terminate for material breach if the other party fails to cure within thirty days after written notice describing the breach.

The Customer may terminate for convenience on thirty days written notice and will pay for services performed and approved non-cancellable expenses. The Provider may suspend affected services after notice if an undisputed invoice is fifteen days overdue.

10. Disputes and notices

Project leads will first try in good faith to resolve disputes within fifteen days. If unresolved, senior representatives will meet remotely before formal proceedings begin.

Notices may be sent by tracked courier or email with receipt confirmation to the parties fictional project contacts. This sample names no real governing law or court.

End of synthetic demo contract. No signature block is provided.
